### **Food for The Holidays**

Calgary Family Peer Connections is a local non-profit organization to help rural families with food. This year, the organization has a new program to help families with groceries for the holidays. Part of the mission of the organization is child advocacy. Moreover, food and food support are vital life skills in a person's life and home environment. Therefore one of the goals of the nonprofit is to increase child advocacy. The organization promotes youth between the grades of 7 -12 to advocate and ask for support and not feel stigmatized, shame or fear to ask for help and receive support. Career conversations at Christmas Break!

When getting together with family and friends over the Christmas break, why not ask to hear some career stories from those you spend time with?

It's amazing how much you can learn to apply to your own career journey by gaining the perspective of others - even if you think the career your aunt or uncle chose is not for you! - Often by learning what we are NOT interested in doing, is crucial to discovering what we MAY be interested in!

Think of these conversations as casual INFORMATION INTERVIEWS that will help you learn more about others around you, how they made their own career decisions and possibly who they know that may be helpful to you as your embark on your own career journey.

Enjoy the break, everyone - I look forward to meeting with you again in January!
